No.F.1(1)/Misc.C-19/DM(S)/2020/769

Dated : 25.06.2020

**Sub : 10,000-BEDDED TEMPORARY COVID-19 TREATMENT PROVISION CENTRE IN DISTRICT SOUTH – REG.**

To manage the unprecedented increase in coronavirus cases in the national capital, the Govt. of NCT of Delhi has taken an initiative to convert the Radha Soami Spiritual Centre, Bhatti Mines in South District to a Covid -19 treatment provision centre. This will probably be the world's largest temporary Covid -19 facility with the capacity of 10,000 beds.

Considering the credentials of **Axia Health Services**, we extend an invitation to your organization as Healthcare Consultants to the Government of NCT of Delhi for the facility.

**Scope of service for Axia Health services may cover the following:**

1. Pre-commissioning planning and resource management
2. Commissioning and Operating

There are 3 ways we would want Axia Health Services to associate:

1. **Technical expert / Advisory:** Provide expert advice from domestic/ international experts, identify resources whether Clinical, Paramedic, IT, Call centre etc; propose tie ups for labs, teleradiology, specialist consultations etc
2. **Establish Clinical and Administrative processes:** like manpower planning, Admission and discharge criteria, referral to higher centre criteria, Governance structure (will be NABH compliant to ensure that patient rights and safety are kept central) and audit the same once the project is commissioned
3. **Be Project Management Office for the Facility** (run the command centre): Overall facility management

Looking forward to being associated with your team and establishing a world class COVID management facility.
